ROTA-WRAPPER®

Fully Automatic Forklift Pallet Wrapping Machine

Specifically designed for fast and consistent wrapping of pallet loaded goods directly on the forklift.

- Remote control operated for easy one-man operation
- Touchscreen with virtually infinite program capability
- Two reel heads for balanced tension from both sides, preventing movement of product
- Halves the number of personnel needed to wrap
- Enhanced efficiency: Over 4 times faster than wrapping by hand
- More effective protection, reducing damages and returns

Ideal for wrapping:
Low profile to mid profile pallets, uneven pallets, high value or delicate components.

What our customers say:

"This was a must have machine to improve the efficiency of our packing facility and reducing the manual handling of the product. It also enables us to package the material better, which in turn should minimise the risk of damage whilst in transit."
